LISTEN TO THE WORLD OF ISLAM

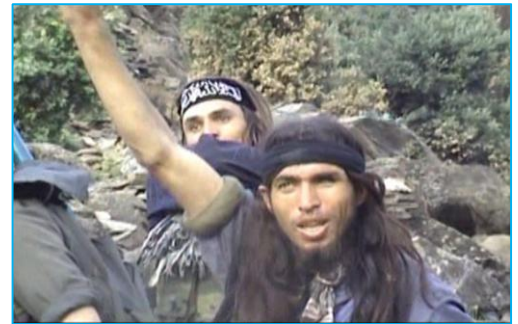

"In reality the greatest form of terrorism in the present day world is state terrorism; indiscriminate bombing of civilian people; horrifying women, children, aged people and public by drones; interference in others affairs under the name of self defense; destroying others homes, villages and cities thousands kilometers away by different missiles and so on. The greatest challenge for the United Nations Organization is the restoration of justice and fairness in the world. Justice and equity not only guarantees world's peace and stability but also restore the credibility of this organization. If this organization carries on taking decisions under the pressure of powerful states against the weak, then no one will expect justice and equity from it. This organization should stop the cruel or at least should resist them. Therefore the Islamic Emirate of Afghanistan wants to draw the attention of this organization towards a reality, and that is to assist the Afghan nation instead of supporting the invaders and corrupt elements."

ISLAMIC EMIRATE OF AFGHANISTAN: ISSUES OF THE WORLD AND 67TH MEETING OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS

"The Muslim and Mujahid nation of Afghanistan is marking the eleventh year of the barbaric infidel invasion in their triumphant Jihadi trenches such that the wary morale-lacking invaders are competing ignominiously with each other in turning tail from Afghanistan even as their bases are being conquered by high-spirited Mujahideen one after the other. Even now the invaders should understand if this battle was to prolong a hundred years, the determination and zeal of the Afghans in defense of their religion and land will not waver and even then the solution will be your defeat and complete withdrawal. Those who can easily grasp this concept are those who have studied the history of Afghanistan. And victory shall certainly be awarded to the valiant Mujahideen, the defenders of the religion of Allah Almighty, Allah willing."

ISLAMIC EMIRATE OF AFGHANISTAN: MARKING ELEVENTH YEAR OF THE INVASION OF AFGHANISTAN

"October 7, 2001 is the most terrifying date in the history of Afghanistan. On this day the malicious alliance of nearly 50 countries under the leadership of America illicitly invaded the sanctuary of our pure homeland. They started attacks on the faith, honor and land of the valiant Afghan nation. They empowered a limited coward stooges on the symbolic seat of authority just to deceit the Afghans. Now the arrogant and naughty leaders of the west would also be admitting in closed meetings that if they were aware of the reality they would have accepted this plan of the Islamic Emirate long ago that the solution of the Afghan dilemma is in the complete withdrawal of the external forces from Afghanistan."

ISLAMIC EMIRATE OF AFGHANISTAN: THE TRESPASSERS EXPLICITLY ADMITTED THEIR TROUNCE!!!

Sunday, 21 October 2012 - Six innocent children were murdered, most of them blown to bits, and two more got severely injured after two mortar shells deliberately fired by US terrorist forces from a US military Camp known as "Kizr" rammed into their homes today at 11:00 a.m. local time in a village Sheikh Khel on the outskirts of Baraki Barak district of Afghanistan's Logar province, a Mujahideen official said on Sunday. Hakim, Omar Jan, Ramat, Zahir, Ya Gul, Humayun are among the children brutally martyred in today's terror attack by US invaders, while Abdul Jabar and Zafhar were among the wounded.

SPOKESMAN OF ISLAMIC EMIRATE ZABIHULLAH MUJAHID

LISTEN TO THE WORLD OF ISLAM

"The enforced American war against the Muslim Afghan Nation has entered its 12th year. But the start of civil war with the withdrawal of NATO troops is an unrealistic assumption. The reality is that the root cause of war is the American and its allies assault on our beloved homeland. Current circumstances are totally different as compared to 90s. The Islamic Emirate of Afghanistan has a plan to pave the way for an inter-Afghan understanding and consultation with scholars, national heads, intellectuals, students, civic societies and Jihadi commanders etc."

ISLAMIC EMIRATE OF AFGHANISTAN: THE AFGHAN NATION WILL BREATHE SERENELY AFTER THE FOREIGN EXPULSION!!!

"In this futile and lopsided war in which the American nation was made a scapegoat for the lust of the arrogant rulers, tolerated heavy losses and sufferings. Thousands of adults were killed; tens of thousands were disabled, innumerable are suffering from mental and psychological disorders, billions of dollars were spent, heavy warfare have been destroyed, the American prestige was damaged in the world, the American citizens are safe nowhere, facing economic problems, hunger and unemployment, even the America herself is in danger because her army has lost the morale."

ISLAMIC EMIRATE OF AFGHANISTAN: THE LATTER WISDOM DOES NOT EXIST EARLIER!!!

"The United Nations Organization (established on October 24, 1945) has passed many resolutions regarding Afghanistan but two of them are worth mentioning. The first one was passed on January 14, 1980, condemning the then Soviet Union invasion over Afghanistan and demanding the withdrawal of all external forces from Afghanistan. This resolution was welcomed by the Afghans and they had a soft corner for the United Nations Organization.

But the second decision was just opposite the first one which justified the foreign invasion and supported this filthy action. This decision (dated 12 September 2001) will be remembered in the Afghan history as permitting the rebellious forces to invade other countries under the lame excuse of self defense. This decision paved the road for Americans and their allied to invade Afghanistan. After that, every year they took decisions supporting the trespassers and continuing the bloodshed."

ISLAMIC EMIRATE OF AFGHANISTAN: ISSUES OF THE WORLD AND 67TH MEETING OF THE GENERAL ASSEMBLY OF THE UNITED NATIONS

"Officials of UNAMA in Kabul once again remarked about rise in civilian casualties due to explosive devices and leveled accusations against the Mujahideen even though everyone is aware that the issue of civilian casualties is propagated by UNAMA and other western institutes only for their own malicious goals and importance is placed on vested interests instead of distress about the life and death of civilians. The real reason behind this propaganda is to try and stop the lethal blows handed by Mujahideen to the foreign invaders using landmines despite the fact that our defenseless nation has very limited tools to counter the advanced and indiscriminate weapons deployed by the enemy. If UNAMA really cares about civilian casualties then it should have taken practical steps for its prevention; condemned brutal actions of NATO; questioned torture and other inhumane practices inside prisons... The Islamic Emirate of Afghanistan is not liable for any incident or blast which causes only civilian casualties without having any apparent military objective and especially regarding which our spokesmen show a clear cut reaction."

Civilians drive away local militia police (ALP) in northern Parwan province PARWAN, Oct. 11 –There are reports from northern Afghanistan's Parwan province that the ordinary people, in a series of campaigns resulting in civil resistance, have chased the local puppet militias from Parwan province's Siyagard district, clearing the district from the militias or Arbakiyan and burning down their outposts and check points all over the district. The popular uprising erupted due to the militias' oppression, plunder, burglary, theft, intimidation, extortion and harassment of the innocent civilians whose lives have become miserable by all this which ended in not only clearing the area of the impure presence of the US-made local militia forces, but also they were forced to move their families away, too. A civilian, on the condition of anonymity, told Al-Emara that the no one, from the day one, was in favor their presence and the presence of their posts in Parwan, yet, their check posts and outpost have been installed only through the US and its allies using military force. **Reported by Zabihullah Mujahid**

The 88 year old (Haji Muhammad Aslam Aka) opened fire with his Kalashnikov on those foreign invaders that were recklessly searching homes of ordinary civilians in Pirvano and Shalizara areas after cowardly raid, causing the locals material damages. The heroic elder was later awarded with martyrdom after being struck by enemy return fire (may Allah accept him). **Reported by Qari Muhammad Yousuf Ahmadi**

Al-Emara

Quotes from the Message of Felicitation of the Esteemed Amir-ul-Momineen (May Allah protect him) on the Occasion of the Eid-ul-Odha

"I extend my felicitation to all Muslim people of Afghanistan, to the gallant Mujahideen who are now arrayed against the invasion, to the families of the martyrs, to the disabled and the esteemed pilgrims in every part of the world, on this occasion of Eid-ul-Odha, a great day of selflessness, sacrifice and joy."

"We ask the Almighty Allah with deep humbleness to grace us with further ability to achieve our goals, to remain committed to the aspirations of our Jihad, neither become arrogant (to gloat) nor become heedless about the goals and sacred path of Jihad. We should seek the pleasure of Allah in the conduct of all affairs and make it our resolution to obey our superiors, to implement the bye-law of Jihad, and to work for the establishment of the Islamic system, the comfort and prosperity of our people, our nation of which you and we are a part and parcel, has gone through hardships, sufferings and oppression in the past over thirty years. They deserve it as an obligation on us to behave with them with tolerance and good manners. It is because of the sacrifices, selflessness and daring feats of this very nation that you and we become able in keeping up the battle against such an arrogant power for eleven years triumphantly and face the enemy with defeat at all fronts."

"I urge every brave Afghan in the ranks of the foreign forces and their Afghan hirelings who may find an opportunity to utilize this opportunity effectively and quash the enemies of Islam and country in their centers and use all possible means, opportunities and tactics to strike them. This is because Jihad is an obligation enjoined on every one. It is the duty of every individual of the nation from religious perspective and on the basis of his conscious to strive for the liberation and independence of his country."

"The Afghans have not committed invasion against anyone else and nor we have made aggression against the territory of others but we will continue to wage Jihad against the invaders who have invaded our country until the occupation ends completely. We told the enemy eleven years ago that their coming (to the country) will be easy but their presence and exit will be full of complications. Today's situation displays the same picture. **We have enough capability to wage a prolonged struggle against the enemy, have full trust in our Lord, great patience and enough man power. We have neither borrowed these capabilities from others nor anyone else has bestowed them on us as a favor.** If God willing, we will foil all plans of the enemy with full capability and sagacity. Our Jihadic momentum has reached a phase that enjoys comprehensive global Islamic support, sympathy of the people and with the proper hardware having been obtained, we are now in a position to face the enemy with a shocking fate in the military front, if God willing."

"You are in the scene witnessing that the ranks of Jihad do strengthen, experiencing expansion in every part of the country because of the close support of (our) brave people with the Mujahideen and their sacrifices. Massive aggressive and Jihadic tactical attacks are carried out against the grand bases of the invaders. The (enemy) evacuate military bases and barracks in awe of Mujahideen. Some conscious daring Muslims from among the ranks of the regime installed by the invaders, launch decisive attacks against the cunning invading enemy. Those Afghans who have been deceived are now turning to the peaceful lap of the Islamic Emirate in groups as a result of the efforts underway by the Call and Guidance Commission. Other self-same developments and transformations are some of the achievements that we and you should, as an obligation, have to thank Allah (swt) for having them bestowed on us."

"The enemy has tried and is trying to blame the Mujahideen for the civilian casualties. Increase your efforts to expand the area of infiltration in the ranks of the enemy and to bring about better order and array in the work. This tactic will achieve more fruitful results, if God willing. Focus on honing behavior and raising level of knowledge of the Mujahideen. Explain to them all essential injunctions and ethics of Jihad, and pay attention to their education, vastness of insight and moral upbringing. Give a hand of help to the orphans, the disabled and the prisoners. This should remain inculcated in your mind that every action contrary to the religious requirements, and being based on sheer emotions bring in only wicked consequences."

"The West calls the desecration of the Holy prophet (peace be upon him) and the torching of the Holy Quran, The Divine Book, as a freedom of speech and thought in a time that if a Muslim would happen to recite verses of Jihad in the Holy Quran, The Book of Allah, the Almighty and translate them or they just demand their rights and freedom, then they put them in detention by blaming them as being terrorists and give them the most brutal tortures. Any way, their propaganda of the world of their films which is based on their imaginary views and fantasies and indicating their narrow-mindedness will only bring them shame and disgrace."

"I ask Allah, the Almighty to bestow on us, the believing and Mujahid people of Afghanistan, a great substitute for the strong, brave and warm support extended to the Mujahideen against a non-believing alliance under the leadership of America for a period extending more than a decade. It is owing to this support, that the Jihad has reached its success. Similarly, I ask Allah, the Almighty to grant patience, steadfastness and a great reward to those families whose relatives have been martyred, wounded or imprisoned or sustained heavy losses in the way of the sacred Jihad or during the blind bombardment and raids of the enemy. **I pray to the Almighty Allah to enable our nation to reach its ultimate aspirations for the holiness of the pure blood of the martyrs and may the flag of Islam stand raised in the country, fluttering. Amen, O Sustainer of the Worlds! Peace be upon you all."**
